

Play It Safe!™

Kindergarten Script

Movie – 11 minutes

Did you see that Rosa and Tick Tock learned the same rule you did? (Yes!)

There's something else I want you to know and it's very important, so listen closely. Most people would never think of touching a child in an unsafe or confusing way, however, it has happened to some children. If it has ever happened to you, I want you to know that what happened was not your fault. You didn't do anything wrong. If you haven't told anyone about it, it is very important for you to tell someone. It is never too late to tell. The person you tell, must then talk to someone whose job is to help protect children.
